NATIONAL MERIT SCHOLARS

Historically, 20% of our graduates have been selected as National Merit Finalists or Commended Scholars.

Mars Hill Academy is a PK-12 co-educational, independent, day school rooted in the historic Christian tradition and the classical liberal arts and sciences. Our mission is to equip students with the tools of learning; to love truth, goodness, and beauty; and to cultivate virtuous young men and women who will serve the Lord in whatever calling He gives them. We serve 150 families from 67 churches across six counties in Southwest Ohio. Our Logic and Rhetoric School has 126 students and a faculty- student ratio of 1:10.

MARS HILL ACADEMY DISTINCTIVES

Mars Hill Academy is a classical Christian school, employing the centuries-proven educational methodology known as the Trivium — or tools of learning — consisting of Grammar, Dialectic (Logic), and Rhetoric. Emphasis is placed upon critical thinking skills in dialectic and rhetoric. Our strong classical methodology challenges students through **engaging, in-depth studies** in Latin, Greek, formal logic, classical rhetoric, science, and math. All students are provided with an **honors-level** curriculum.

The high school **history and literature program** is an integrated, intensive study of the great writings, people, events, and ideas that have formed and reformed civilization, with a focus on Western Culture. Classic works are studied from a traditionally biblical perspective and within their historical context. Seniors research, write, publicly present, and defend a **Senior Thesis**. Preparation includes formal training in Rhetoric, the art of persuasive expression, or as Aristotle wrote, “the ability to discern in any situation the available means of persuasion.” Texts include Aphthonius’ *Progymnasmata* and Aristotle’s *On Rhetoric*.

Theology, history, literature, and rhetoric courses have extensive reading, writing, discussion, and speaking requirements. Students study the rhetorical strategies used by the authors of the greatest speeches of Western Civilization and imitate those strategies in their own compositions and speeches.

Through **science and math studies**, students cultivate an appreciation of the ingenuity, magnitude, and complexity of the creation. They grow to be scientifically literate with the ability to evaluate scientific content objectively and critically using the tenets of classical education blended with modern laboratory practices.

Language offerings include ancient Greek, Hebrew, Spanish, and an elective study of Latin (all students study Latin in fourth through eighth grades). Students also have the opportunity to participate in **interscholastic sports, music, and drama**.

All students and faculty belong to one of four **Scottish clans** (Campbell, MacGregor, Stewart, and Wallace) which exist to create communities in which virtue can be cultivated in the hearts of students and faculty (e.g., courage, friendship, responsibility, cheerfulness, and devotion). In addition to providing leadership and mentoring opportunities, the clans compete in challenges which include academics, athletics, service, and leadership.
